

JAE HO (JEFF) YANG

jaeyang2021@u.northwestern.edu • (773) 573-6747
2305 Sheridan Rd, Evanston, IL 60201, United States

EDUCATION

Northwestern University

Expected Graduation: 06/2021

- **Major: Computer Science, B.A**
- **GPA: 3.91/4.00**
- **Programming Coursework:** Introduction to Computer Systems, Data Structure & Management, Human Computer Interaction, Data Management & Information Processing

EMPLOYMENT

Knowru Limited

07/2019-08/2019

Software Engineer, Intern

Seoul, South Korea & Chongqing, China

- Built web application “video-kyc” using React/Redux/Node.js to aid loan processing companies in making loan decisions through foolproof verification
- Designed the architecture of application “video-kyc” to support greater scalability through implementation of internal APIs
- Implemented an application-embedded video call system between loan agent and loan applicant using WebRTC
- Expedited the integration of “video-kyc” in Chinese network environment by troubleshooting China-specific issues on PC and mobile devices while working in Chongqing office
- Leveraged Knowledge in Git, JavaScript, WebRTC, Flask RESTful APIs, and debugged using Chrome Developer Tools

Knowru Limited

07/2017-09/2017

Software Engineer, Intern

Seoul, South Korea

- Developed user experience enhancement features in JavaScript, jQuery, and Python such as sending automated emails and auto-generated PDF reports
- Implemented a data visualization graph using SQL, Python, and JavaScript for user dashboard
- Wrote test suites using Python’s “unittest” framework to take part in engineering team’s Test Driven Development process
- Engaged in peer programming and code review sessions twice a week with senior engineers
- Leveraged Knowledge in Git, Django, JavaScript, Unit Testing, PostgreSQL, and debugged using Python Debugger

SOFTWARE PROJECTS

Personal Website: www.jachoyang.com

Python Script: Automated (Selective) Email Download to Local Machine

- Wrote a Python script that selects an appropriate inbox/label, extracts text content, and downloads as a file to a designated directory in a local machine, to aid with daily task of logging into email to receive daily coding problems
- Automated process by adding the Python script as a daily Cron Job on local machine
- Utilized: Python, Cron, IMAP protocol

LEADERSHIP

Northwestern University

09/2019-Present

Resident Assistant

Evanston, IL

- Managed a university residence hall floor of 40 ethnically diverse undergraduate students, and regularly held floor meetings to discuss community expectations and standards
- Enforced University and Residential Life regulations to maintain a safe living environment for all residents
- Performed on-site walking duties and desk shifts for 10 to 15 hours per week, and addressed any issues raised by residents

Republic of Korea Army

10/2017-07/2019

Sergeant / Fire Direction Center Squad Leader

Hwacheon, Gangwondo, South Korea

- Served as a squad leader for a field artillery battery’s fire direction center and communications squad
- Administered daily squad meetings of 10-15 soldiers to ensure the physical and mental wellness of each individual
- Moderated any individual conflicts between squad members, and reported to supervisor after consulting predefined protocols
- Honored as outstanding personnel in commitment and devotion by 7th infantry division commander

SKILLS

Software: (*proficient*) Python, JavaScript (ES6, React, Redux, Node.js), Git (*familiar*) SQL, C++, Java, HTML/CSS
